# Ensure patient safety with Zebra's comfortable, proven wristbands

Patient identification wristbands that fail to scan can impact patient safety and the ability to provide timely patient care. That's why a majority of hospitals choose Zebra thermal- or laser-printed wristbands.

Zebra patient ID wristbands provide easy and reliable scannability, long-term durability, improved accuracy in patient identification, and better operational efficiency at the point of care.

Globally, more than 4 billion patients have been identified by Zebra patient ID wristbands, which offer the widest range of the most durable and easy-to-use direct-print solutions, with both thermal and laser printing options. When you choose Zebra wristbands, you get safe and reliable results you can trust, including:

**Improved patient identification.** Zebra's thermal and laser wristbands use specialized materials, coatings and printing to ensure the durability of printed barcodes and patient information. They resist repeated exposure to harsh sanitizers and protect against smudging, fading, and scanning or readability issues. In turn, this helps ensure positive patient identification and helps match patients to the right care, medication administration, and specimens.

**Reduced nursing workarounds.** Zebra thermal and laser wristbands are quick and easy to fasten securely to each patient, with adhesive closures or clips, a comfortable fit, and long-term durability that helps eliminate scanning and readability issues and reduces the need for nursing workarounds and reprinting.

**One source for all patient identification needs.** Solutions are available for every patient need and use case, with sizes for infants to adults and specialized features for neo-natal care, pediatrics, MR safety, and more.

**Patient ID solution expertise.** As a manufacturer of healthcare-grade patient ID wristbands, thermal printers, barcode scanners and mobile computers, Zebra is a trusted healthcare partner with decades of experience in delivering purpose-built solutions for hospitals and clinics worldwide.

# Compatible with HC100 & ZD510-HC Printers

The ZD510-HC and HC100 are the easiest wristband printers to use on the market. Just insert the wristband cartridge containing Zebra Z-Band® wristbands and print. The smartchip in each cartridge allows automatic calibration. The ZD510-HC and HC100 instantly identifies the wristband size and automatically configures darkness and speed settings for optimal print quality and wristband durability. The result? No wasted wristbands. Support calls for wristband loading issues are virtually eliminated, and admissions personnel can focus on the patient, not printing wristbands.

## Environmentally Friendly Wristband Cartridge: Supporting your Sustainability Goals

As well as designing our wristbands to enhance patient safety, we innovate to support your environmental, social and governance goals. Our new Environmentally Friendly Wristband Cartridge, for use with our HC100 / ZD510-HC Wristband Printers, is made from PET 1 material. PET 1 can be recycled in standard curbside collections, reducing landfill and promoting circular economy practices.

# Compatible with Standard Desktop Printers

Zebra Z-Band thermal wristbands integrate with standard desktop printers for organizations printing from a stationary workspace. Accurately and efficiently print patient information and barcodes with wristbands that were designed to meet your organization's needs no matter the size, color, or wristband material you are looking for.

# RFID Wristbands

Zebra Z-Band UHF durable direct thermal printable wristbands simplify patient identification in clinical environments or for guests at event venues. These disposable RFID wristbands are specifically designed for optimal use with Zebra desktop RFID printers and Zebra RFID readers, allowing you to ensure positive patient identification and better track and manage patients or guests and their locations.

## What Can Passive UHF RFID Do?

Passive UHF RFID uses short- and long-range RFID readers to track any tagged individual or asset with last-read and last-known location throughout a facility.

## Z-Band Direct RFID SR Wristband

Zebra's Z-Band Direct RFID SR wristband is best for use cases where the wristband will be in close proximity to an RFID reader.

## Common Applications

### Healthcare\*

- At the patient bedside through a blanket
- During a patient's surgery through the drape
- Immediate access to critical patient records
- Easy bedside updating
- Quick association of supplies and equipment used in treatments

### Hospitality

- Guest identification
- Access management
- Cashless point of sale

| Part Number | Color | Size     | RFID Inlay | Read Range   | Latex-Free |
|-------------|-------|----------|------------|--|------------|
| 3014578     | White | 1" x 11" | BT0600     | Up to 9.8ft - 3m<br>The read range depends heavily on where the inlay is positioned on the wrist | Yes        |

\* Wristband should be removed during an MRI

## Z-Band Direct RFID LR Wristband

Zebra's Z-Band Direct RFID LR wristband is the long-range RFID wristband solution with a specialty inlay designed for use against the human body. Its design allows the wristband to flag away from the body, enabling longer read ranges by avoiding potential interference from water and fluid inside the body. It's ideal for use with RFID portals or when overhead RFID readers are used, so patients or other individuals can be tracked as they move past each reader.

### Common Applications

#### Healthcare\*

- Streamlined patient tracking throughout a facility

#### Hospitality

- Guest tracking throughout a venue

| Part Number  | Color | Size            | RFID Inlay | Read Range   | Latex-Free |
|--------------|-------|-----------------|------------|--|------------|
| ZIPRD3015155 | White | 1.875" x 14.25" | ZBR2002    | Up to 55.6ft - 17m<br>The read range depends heavily on where the inlay is positioned on the wrist | Yes        |

\* Wristband should be removed during an MRI

## Z-Band RFID XR Wristband

Zebra's Z-Band RFID XR Wristband enables you to combine both PPID and patient tracking in one solution. It's a versatile solution, allowing clinicians to quickly and accurately read wristband data using handheld devices, regardless of patients' wrist positions, to support efficient clinical workflows. And with fixed RFID readers auto-reading wristbands at distances of up to 12 feet (3.5 meters), without needing a direct line of sight to the wristband, you can view patients' last-known locations as they move through your hospital or clinic. This versatile tracking capability enables you to safeguard vulnerable patients, with alerts sounded if they move out of pre-defined areas, register patients as they enter rooms (e.g., operation rooms), and easily locate them when they are needed for tests or consultations.

### Common Applications

#### Healthcare\*

- Accurate, fast, and efficient PPID workflows
- Streamlining patient tracking across your facility

| Part Number  | Color | Size                         | RFID Inlay | Read Range  | Latex-Free |
|--------------|-------|------------------------------|------------|---|------------|
| ZIPRD3018584 | White | 1" x 11"<br>2.54cm x 27.94cm | ZBR8102    | Up to 12 feet<br>3.5m<br>Does not require direct orientation or line of sight to reading device | Yes        |

# Z-Band Fusion

Zebra's self-laminating Z-Band Fusion® direct thermal polypropylene wristband is perfect for use at specialized hospitals where the average patient stay exceeds 14 days.

The advanced shape and design makes assembly easy and allows the wristband to lie flat on the wrist to enable quick scanning, while providing superior patient comfort.

## Features Include

- Self-laminating design protects the printed text and barcodes
- Adhesive-closure
- Wristband extender to fit a wide range of wrist sizes
- Available in Adult, Pediatric, and Infant sizes
- Includes Patient Chart Label
- Durable for an extended time
- Latex-free

## Z-Band Fusion Specifications

Z-Band Fusion wristbands are available in a wide offering of sizes to meet the needs of most patients.

# LaserBand Laser Wristbands & Labels

## LaserBand Wristband

Zebra's self-laminating LaserBand® direct-print laser wristbands enable wristband and label printing on one sheet utilizing existing laser printers.

- Self-laminating seal protects the wristband from moisture and hand sanitizers, preserving patient data, including text and barcodes, for longer wristband usability.
- Ability to simultaneously print patient chart labels and the wristband on one sheet, streamlining patient admissions.
- Available with hole-punches for securement into patient charts.
- Adhesive-free zones around form edges and holes prevent printer jams and reduce costly printer maintenance.
- Enables quick deployment of a barcoded wristband solution without the need for a separate printer for wristbands.

# LaserBand2 Advanced Wristbands

Zebra's self-laminating LaserBand2® Advanced wristbands feature an advanced shape and design that make assembly easy and allows the wristband to lie flat on the wrist to enable quick scanning, while providing superior patient comfort.

Zebra's self-laminating direct-print laser wristbands allow printing wristbands and labels on one sheet utilizing existing laser printers.

- Self-laminating seal protects the wristband from moisture and hand sanitizers, preserving patient data, including text and barcodes for longer wristband usability.
- Ability to simultaneously print patient chart labels and the wristband on one sheet streamlines patient admissions.
- Available with hole punches for securement into patient charts.
- Adhesive-free zones around form edges and holes prevent printer jams and reduce costly printer maintenance.
- Enable quick deployment of a barcoded wristband solution without the need for a separate printer for wristbands.

## Features Include

- Self-laminating design protects printed text and barcodes
- Tamper-evident, adhesive closure
- Wristband extender to fit a wide range of wrist sizes
- Available in adult, pediatric and infant sizes, as well as a labor and delivery format
- Latex-free

## LaserBand2 Advanced Wristbands Specifications

LaserBand2 Advanced wristbands are available in a wide offering of configurations to fit the patient identification needs of virtually all hospitals.

# LaserBand Original Wristbands

Developed by Zebra, LaserBand Original was the first direct print laser wristband in the market that featured a self-laminating seal to protect the wristband from moisture and hand-sanitizers.

- Patented self-laminating seal protects the wristband from moisture and hand-sanitizers, preserving patient data for longer wristband usability.
- Ability to simultaneously print patient chart labels and the wristband on one sheet, streamlining patient admissions.
- Available with hole-punches for securement into patient charts.
- Adhesive-free zones around form edges and holes prevent printer jams and reduces costly printer maintenance.
- Enables quick deployment of a barcoded wristband solution without the need for a separate printer for wristbands

## Features Include

- Self-laminating design protects printed text and barcodes
- Tamper-evident, adhesive closure
- Available in adult, pediatric, and infant sizes, as well as a labor and delivery, and Standard Register-compatible formats
- Latex-free

# Infant Comfort Solutions

Wristbanding infants is a sensitive issue. While hospitals go to great lengths to properly identify infants, staff members are also concerned with the comfort and durability of the wristbands. Zebra kept these challenges in mind when creating a complete line of infant comfort solutions.

## ComfyCuff

This soft foam cuff features an adjustable Velcro® closure, ensuring infant comfort. It can be used in conjunction with LaserBand2 Advanced pediatric / infant ID tags.

5" x 1.25", Latex Free, Part Number: LB2-BABY-P

## ComfyCuff Security Seal

This security label is designed to securely stick to the ComfyCuff material and self-destruct to indicate wristband tampering.

2.875" x 0.4375", Latex-free, Part Number: LB2-BABY-CCS

Clip-closure

Self-locking

## ComfyCuff Infant Swaddle Band

This soft Tyvek® band makes identifying a swaddled baby quick and easy. The Swaddle Band creates an extension between the ComfyCuff and LaserBand2 and LaserBand2 Advanced infant ID tags for easy tag access.

9" long, Latex Free, Part Number: LB2-BABY-SWB9

## Vinyl Infant Wristband

These latex-free, soft, flexible vinyl wristbands are for use with LaserBand2 Advanced infant ID tags. The narrow width allows some models of "Abduction Prevention Systems" to be attached. They are available with a clip or self-locking closure. The self-locking closure wristband enables size adjustment with a gentle tug as the infant loses mass around the wrists and ankles within the first 24 hours of birth.

Clip-Closure Part Number: PS-BABY

Self-Locking Closure Part Number: PS-INFANT-ADJ

# Alert Wristbands and Labels

Enable quick identification of special patient conditions with color-coded wristbands and labels from Zebra. Our solutions enable compliance with state, regional and local color-coding standards for patient conditions such as allergy, DNR, fall risk, latex allergy and restricted limb.

## Spot-alert labels

Spot-alert color-coded labels can adhere to any wristband and feature a strong adhesive that causes the label to tear if tampering occurs. They are available in standard color and designation combinations to support the most critical patient conditions.

## Slim alert wristbands

These color-coded vinyl clip-closure wristbands are 0.625 inch by 10 inches and are pre-printed with patient conditions.

## Tyvek alert wristbands

These color-coded Tyvek adhesive closure wristbands are 1 inch by 10 inches and are pre-printed with patient conditions.

# OmniBand

Healthcare providers currently printing barcode labels can quickly implement barcode wristbands by placing a laser or thermal barcode label in Zebra's self-laminating OmniBand® wristband—without the need for IT support.

### Features Include:

- Self-laminating design that protects printed text and barcodes
- Tamper-evident adhesive closure
- Wristband extender to fit a wide range of wrist sizes
- Accepts labels up to 3.25" x 1"
- Available in adult and pediatric sizes
- Latex-free
- Two wristbands per sheet

### Ideal for specialized use in hospitals such as:

- Rehabilitation hospitals
- Psychiatric wards and hospitals
- Long-term care hospitals

## OmniBand wristband specifications

| Part Number     |                   |                 |
|-----------------|-------------------|-----------------|
| White—Adult     | LB2-ADULT-WL3     |                 |
| White—Pediatric | LB2-PED-WL3       |                 |
| Red             | LB2-ADULT-WL3-RED |                 |
| Blue            | LB2-ADULT-WL3-BLU |                 |
| Orange          | LB2-ADULT-WL3-ORA |                 |
| Wristbands      |                   |                 |
|                 | Adult             | Pediatric       |
| Length          | 10"               | 8"              |
| Label area      | 3.375" x 1.125"   | 2.375" x 0.875" |
| Label size      | 3.25" x 1"        | 2.25" x 0.75"   |

# StatBand Emergency Wristbands

Zebra StatBand Emergency wristbands are the all-in-one wristband and triage tag with uniquely numbered barcode labels to help quickly and accurately identify, record, and track patients in urgent and emergency care situations.

Each wristband provides durable moisture and abrasion resistance in a tag with a patented fastening system for quick securing to each patient. StatBand Emergency wristbands are also compatible with electronic healthcare records, emergency response, and disaster management software for easy implementation.

- Advanced water- and abrasive-resistant material to withstand harsh conditions
- Superior durability compared to traditional paper and string tags
- Patented one-piece fastening system for fast and easy securing
- Uniquely and sequentially numbered alphanumeric digits and Code 128 barcodes
- Pre-printed barcodes on each wristband for fast, accurate identification and tracking
- Clip-on belt fastener to help carry and access wristbands with both hands free

## Triage Wristbands

| Part Number | Size                     |
|-------------|--------------------------|
| SB-TRIAGE   | 17.5" x 3" wristband tag |

### Band Details

11 glove/glass-ready and unique numbered barcoded labels

25 wristband tags per bundle

1 glove/glass-ready label for decontamination procedures

3 tear-off labels with specific triage status colors and barcodes

Writable area on the back for vital signs and other patient notes

## EMS Wristbands

| Part Number | Size              |
|-------------|-------------------|
| SB-EMS      | 19.5" x 1.25" tag |

### Band Details

6 glove / glass-ready and uniquely numbered / barcoded labels

1 permanent and irremovable barcode that is identical to the other six peel-and-stick barcodes

5 tear-off color-coded triage status identifiers with barcodes

Tamper-evident adhesive closure
